**Trailer test change welcome but road safety a priority** From 16 December 2021, there will be an automatic ability for those with a full car driving licence to tow a trailer with a car without an additional test. The move is part of Government efforts to free up the reported backlog in driving tests. This will only apply where the trailer is up to a Maximum Authorised Mass (MAM) of 3,500kg. Licences will be updated to reflect this change. **In the interests of road safety, as well as to help comply with Health and Safety legislation, members are being encouraged to ensure that all staff who may have cause to tow a trailer with a car undertake training.**

Training is available at a cost of £170/day and will be taken in your 4x4 & trailer and tailored to the candidate.
